Tammany Sends Out Election District Captains to Spur Up Voters.

The Sullivans and "Big Tom" Foley got busy to-day and sent their district eaptains out to bring in delinquent voters who failed to register yesterday, some of them because they are taking little interest in the election and others because they have been celebrating

Late this afternoon and to-night a registration rush throuhgout the downtown districts is expected. Other Tammany leaders also are rounding up voters, and the figures are expected to exceed those of the second day on the last Mayoralty registration.

In the lower East Side districts. where there are many Hebrews, it was expected that there would be a rush of voters to the registration places to day, when the books were opened at o'clock. This rush did not come until hours later, and it was explained that many of the men who had celebrated You Kippur were still at home, but would appear to enroll their names Over at No. 37 Henry street, which

is said to be the largest voting pre-circt in the city, the books were open an hour before the first man appeared

day, however, he seemed to feel that interest was flagging, and started to strup the voters.

There was also an increase in many Tammany strongholds in Manhattan. Early in the day the registration was listless, but in the late afternoon and after nightfall the figures picked up at a fremendous rate.

In the Republican strongholds there was hardly any gain. In the Twenty-first Assembly District, an overwhelmingly Republican section, about 1,400 more votes were registered than two years ago, while in the Twenty-fifth, axiso Republican, just two more were registered than two years ago, and in the Thirty-first, Republican also, there was a falling off of 150.

On the other hand, in the Ninth Assembly District, a Tammany district, there was a gain of about 250; in the Fifteenth, 550, and in the Thirty-fifth about 490.

In the two large Bronx districts the showing to-day was even worse than the Harlem District. On an average the registration this morning was about half of the light totals of yesterday. In some instances it was even less. On the upper west side, the silk-stocking district, there were but few who registered to-day, the voters seemingly waiting until the last day or two of registration.

Knabe and Other New Pianos. Prices Reduced Beyond All Precedent. It seems a pity to sell such Pianos at such prices. It has never been done before. It may never be

done again. The instruments are splendid, perfect, and in most cases absolutely new.

Yet with the arrival of the new LOESER PIANOS—the noble instruments to which we have given our own name and for which we stand sponsors absolutely—the necessity for the maintenance of a line of these Pianos terminated. We have no room for them on our Piano floors, and so, that the dispersal may be quickly done, we have sharply cut the prices.

Most of these Pianos are absolutely new. Some few have been used, so slightly, though, that it is impossible to tell except by special marks that they are not entirely new. The prices speak for themselves, and no one who wants a Knabe Piano or a Starr or an Emerson should miss this chance to get one and save much of the usual prices.

With the Knabe Pianos are included some Starr and Emerson and Richmond Upright Pianos which are reduced

s sharply in price, though many o	if these instruments are also absorbed	olutely new.
